Ultimate Zambia

Tour Leaflet 2019

11 November - 6 December 2019
Our 26-day Zambia tour is the most comprehensive bird tour offered to Zambia, and is convenient spliced into three shorter sections.

A Pre-Tour extension to the north-east of the country targets three rarely-seen species, namely Katanga Masked Weaver at Bangweulu, Tanzania Masked Weaver in the Mbala area and Zambian Yellow Warbler at Lake Mweru.

The Main Tour takes in the best sites in central Zambia, with a strong focus on miombo birding. First we visit Mutinondo, before heading west to the Mwinilunga area, stopping en route to look for specials such as Margaret’s Batis. Our return from Mwinilunga skirts Kafue National Park. Highlights are likely to include Bar-winged Weaver, Laura’s Longclaw, Pel’s Fishing Owl and Bamboo Warbler.

During the Pitta Tour we will visit the Zambezi Valley in search of displaying African Pitta, the Livingstone area and west of there for Black-cheeked Lovebird, and Choma for the endemic Chaplin’s Barbet.

Zambia offers a good list of specials for world listers and a wide array of species and other wildlife for those with a more general interest.

This trip has a strong focus on watching birds, but there are opportunities too for some mammal watching and bird (and other) photography.

Let us know if you have target species or want to know more about the species we might encounter. A species list will be handed out to you at the start of the tour and is available beforehand upon request.

The tour is timed to coincide with the peak time for birding across Zambia as a whole. We expect to encounter a fair amount of rain, mostly as afternoon thunderstorms. Most days, especially in the Zambezi Valley will be hot, although rain will bring some relief from the high temperatures.

We will mostly make use of one or two four-wheel-drive vehicles, or a bus on the Pitta Tour. More details about what to expect, how to prepare and what to pack are provided in our Tour Instructions.

**Tour Focus**

**DATES**

Pre-Tour 11-18 Nov 2019  
Main Tour 17-28 Nov 2019  
Pitta Tour 28 Nov - 6 Dec 2019

**PROVISIONAL PRICES (+ SS)**

Pre-Tour $2950 + 290  
Main Tour $3950 + 450  
Pitta Tour $2950 + 340  
All three $9500 + 950

Includes all ground costs.

**TOUR LEADER: MICHAEL MILLS**

Michael’s incredible focus, dedication and ability to locate and show Africa’s toughest birds is probably unequalled on the continent. He has led dozens of tours across Africa and his experience in locating birds on just the softest of calls or briefest of views impresses those who travelled with him.

**MIOMBO AND AFRICA PITTA**

- Pre-Tour extension for Tanzania Masked Weaver, Katanga Masked Weaver & Zambian Yellow Warbler.
- Main Tour targets such as Grimwood’s Longclaw, Bar-winged Weaver, Laura’s Woodland Warbler, Bamboo Warbler, Dambo Cisticola.
- Pitta Tour for African Pitta, Black-cheeked Lovebird and Chaplin’s Barbet.
**INTRODUCTION**

Zambia, lying on the interface between Central and southern Africa, is largely blanketed in miombo woodlands and dotted with swamps and dambos. In moister areas tropical forests have developed and the drier south also holds mopane woodlands and acacia woodlands and gallery forests along the Zambezi Valley. Although the country only holds two endemics, Chaplin’s Barbet and Black-cheeked Lovebird, a wide range of specials can be found and it is one of the best places to see the desirable African Pitta. Given the quality of the birds on offer Zambia must be regarded as one of Africa’s most under-birded countries.

Our 26-day itinerary takes in the best that the country has to offer, and aims to find as many regional specialties as possible.

Firstly we offer a special Pre-Tour extension to the far north-east. Our main targets are two little-known weavers, namely Katanga Masked Weaver at Bangweulu and Tanzania Masked Weaver near the Tanzanian border. We will also search for two recent splits, Zambian Yellow Warbler and Whyte’s Francolin from Papyrus Yellow Warbler and Shelley’s Francolin, respectively. Oustalet’s Sunbird is also a possibility.

The Main Tour will kick off at Mutinondo Wilderness, one of the finest miombo woodland birding sites worldwide. It is undoubtedly the best place to see Bar-winged Weaver, but other target species include Böhm’s Flycatcher, Anchieta’s Sunbird, Reichard’s Seed eater and Anchieta’s Barbet. Along the dambos we’ll watch out for Hartlaub’s Marsh Widowbird, Stout Cisticola, Blue Quail and Black-rumped Buttonquail in the grasslands, and Laura’s Woodland Warbler, Bocage’s Akalat and Black-backed Barbet in the gallery forests. We will try for the incredibly difficult Long-toed Flufftail and there is an outside chance of seeing African Grass Owl.

From here we move on to the north-west of the country to visit the Mwinilunga district, breaking the journey overnight to look for Black-necked Eremomela and Margaret’s Batis.

The Mwinilunga area holds a diverse array of habitats from extensive gallery forests to open grasslands and miombo woodland. The most sought-after bird here is the localised Grimwood’s Longclaw. Other open-country birds could include Black-and-rufous Swallow (a bit unpredictable at this time of the year), Bocage’s Weaver (possibly finished breeding now), Angola Lark and Dambo Cisticola. Forests hold Bamboo Warbler, Bannerman’s Sunbird and Spotted Thrush-Babbler.

From Mwinilunga we’ll wind our way back to Lusaka via Katie National Park, where we hope to locate Pel’s Fishing Owl and White-backed Night Heron.

Finally the Pitta Tour visits the Zambezi Valley in search of Africa Pitta, Livingstone’s Flycatcher and Red-throated Twinspot, the Livingstone area for Black-cheeked Lovebird, Slaty Egret and Brown Firefinch, and the Choma area for Chaplin’s Barbet.

**ACCOMMODATION AND MEALS**

Accommodation and meals are generally fairly good by African standards, and vary from private lodges and guest houses to rustic bush camps and small hotels. Rooms mostly have private facilities and hot water. We may need to share ablution facilities only on the odd occasion.

Meals are Western-style. Please advise if you are vegetarian and what foods you enjoy, so that we can cater for you.

Water is not safe to drink so we supply complimentary bottled water in the vehicle.

**WALKING**

This tour requires at least a moderate degree of fitness. Most walks will be done at a gentle pace, although there will be a couple of longer hikes lasting at least a day. Conditions underfoot can be muddy at times.

**GROUP SIZE**

Maximum 9 participants.

**INTERNATIONAL FLIGHTS**

Please plan to fly in to Lusaka by the night of the following dates:

- Pre-Tour: 11 Nov.
- Main Tour: 17 Nov (on 18 Nov you will be transferred by road to Mutinondo to meet up with the rest of the group)
- Pitta Tour: 28 Nov.

Departure from Lusaka not before the night of the following dates:

- Pre-Tour: 19 Nov.
- Main Tour: 28 Nov.
- Pitta Tour: 6 Dec.

Please email callan@birdingafrica.com a copy of your proposed flight details for approval before paying for your ticket.

11 Nov: Arrive Lusaka
Welcome to Zambia! Once you have dealt with arrival formalities and collected your luggage, proceed to the arrivals hall, watching out for a board showing your name or 'Birding Africa'. From the airport we transfer to our hotel for an overnight stay.

12 Nov: To Kasama
On the first full day of the trip we take a flight from Lusaka to Kasama in northern Zambia, where our vehicle will be waiting for us. This cuts out 1000 km of road travel, and makes for a much more comfortable start of the trip. The flight is currently scheduled to depart just after midday and to arrive in the mid-afternoon. From there it will be a two-hour drive on a tarred road to Mbala.

13 Nov: Mbala area
We have a full day to explore the Mbala area, the most accessible site for the localised Tanzania Masked Weaver. Oustalet's Sunbird also occurs in the region, and we’ll try to find the localised Whyte’s Francolin.

14 Nov: Mbala to Kasama
After some more birding in the Mbala area we return to Kasama for an overnight stay.

15 Nov: To Nchelenge
Today we drive west to Lake Mweru on the DR Congo border. Most of the day will be spent in transit.

16 Nov: Nchelenge area
We have a full day in the Nchelenge area to search for two localised swamp specialties, namely Zambian Yellow Warbler and Katanga Masked Weaver.

17 Nov: To Lake Bangweulu // Arrive Lusaka
Leaving Nchelenge early we have a long drive to Lake Bangweulu, where we overnight on the lakeshore. // Those arriving for the Main Tour arrive in Lusaka today, where they overnight.

18 Nov: To Mutinondo
At Lake Bangweulu we have another chance to find Katanga Masked Weaver. We may also find Long-toed Lapwing, Swamp Flycatcher, Chirping Cisticola, Hartlaub’s Babbler and Coppery-tailed Coucal, before driving to Mutinondo. // Those arriving for the Main Tour will be transferred by road from Lusaka to Mutinondo, where they will meet up with the rest of the group.

19-20 Nov: Mutinondo
The spectacular wilderness of Mutinondo is one of the top miombo birding localities worldwide, and we have two full days to sample its delights.

In the miombo woodlands the top bird is Bar-winged Weaver, but there is a strong supporting cast with Anchieta’s Barbet, Anchieta’s Sunbird, Eastern Miombo Sunbird, Western Miombo Sunbird, Reichard’s Seedeeater, Red-capped Crombec, Shelley’s Francolin, Böhm’s Flycatcher, Yellow-bellied Hyliota, Pale-billed Hornbill, Miombo Tit, Miombo Scrub Robin and Souza’s Shrike all possible.

We will also dedicate a significant amount of time birding the dambos (depressions) with their moist, open grasslands and forests. In the grasslands we aim to find Hartlaub’s Marsh Widowbird, Fawn-breasted Waxbill, Black Coucal, Fülleborn’s Longclaw, Pale-crowned Cisticola, Stout Cisticola, Blue Quail, Black-rumped Buttonquail and, with some luck, African Grass Owl. Forest birds include Schalow’s Turaco, Ross’s Turaco, Black-backed Barbet, Black-throated Wattle-eye, Laura’s Woodland Wabler, and Bocage’s Akalat.

21 Nov: To Nsobe
After some final birding around Mutinondo we’ll start our journey westwards, although the first overnight stop is not too far a drive. On the way we’ll search for Black-necked Eremomela and Chestnut-mantled Sparrow-Weaver in the tall woodlands near The Forest Inn, before continuing on to our overnight accommodation.
24-25 Nov: Mwinilunga district

The north-western corner of Zambia, wedged between DR Congo and Angola, is one of the wildest and most exciting regions in the country for birding. We have two full days to sample it’s delights. Floodplain grasslands are home to the localised Grimwood’s Longclaw, our top target in the area. Other grassland birds include Rosy-throated Longclaw, Dambo Cisticola, Fülleborn’s Longclaw, Hartlaub’s Marsh Widowbird and Sooty Chat. The forests hold a host of other species, and Bates’s Sunbird, Bannerman’s Sunbird, Western Bronze-naped Pigeon, Grey-winged Robin-Chat and Bamboo Warbler. Forbes’s Plover and Black-collared Bulbul are also possible.

26 Nov: To Solwezi

After some final birding in the Mwinilunga region we return towards Lusaka, breaking our journey for an overnight stay at Solwezi.

27 Nov: To Kafue

Our final destination on the Main Tour is the edge of Kafue National Park at Kafue River Lodge. Here we hope to find Pel’s Fishing Owl, Grey-olive Greenbul and Rufous-bellied Heron.

28 Nov: Return to Lusaka // Arrive Lusaka

After some final birding at Kafue River Lodge we return to Lusaka where the tour ends in the evening. // Those arriving for the Pitta Tour will meet up with us here for an overnight stay.

29 Nov - 6 Dec: Pitta Tour

Following on seamlessly from our Main Tour we offer our Pitta Tour, which aims to find African Pitta, Black-cheeked Lovebird and the endemic Chaplin’s Barbet. Please see our Zambia Pitta Tour brochure for full tour details.

22 Nov: To Chingola

One of the most localised specialties in Zambia is Margaret’s Batis, and this morning will be dedicated to tracking down one of these rare birds. Be prepared to get muddy feet as we need to enter swamp forest in search of this special. In the afternoon we’ll continue on to Chingola for an overnight stay.

23 Nov: To Mwinilunga district

Continuing further west we’ll do some birding in the early morning in the Chingola area where Sharp-tailed Starling and Whyte’s Barbet are possibilities. The rest of the day will be spend driving to far north-western Zambia, with Red-throated Cliff Swallow the most likely addition to the trip list during the drive.
BOOKLET AND CHECKLIST

Birding Africa provides:
1. Tour Details leaflet with detailed itinerary (this document).
2. Tour Information Pack, emailed to you.
3. Tour Booklet with checklists, provided in hard copy at the start of the tour.

QUESTIONS?

Email Michael at michael@birdingafrica.com and copy callan@birdingafrica.com.

HOW TO BOOK

1. Complete our easy online booking form.
2. Secure your booking deposit by credit card on our 3D secure online payment site (ZAR2000 or about $110.)
3. Settle the balance by bank transfer 150 days before the tour. We will email you a reminder and the banking details.

INCLUDED IN THE PRICE OF THE TOUR

- services of Birding Africa tour leader and local guides
- entry fees and activities as per itinerary
- ground transport in Zambia and an internal flight on the Pre-Tour extension only
- accommodation and all meals starting with dinner on the first night and ending with lunch on the last day
- airport transfers
- bottled water in the vehicle
- one soft drink per meal
- general tips
